

Rizzo Associates Czech has established a business in the following areas:

- engineering services for the construction industry,
- graphic work and construction drawing services,
- engineering design in construction,
- research and development into technical sciences – power engineering,
- preparation and execution of technical designs,
- delivery of software and hardware and software consulting.

The management of Rizzo Associates Czech, a.s. hereby declares the below Quality Policy:

The Quality Management system is implemented and maintained to be functional and effective and to meet all requirements defined by the international standard (ČSN) EN ISO 9001:2015.

The output project documents (reports, calculations, drawings etc.) that are the outcome of the engineering and technical activities of Rizzo Associates Czech, a.s., i.e. result from individual projects, must be processed in a way to always achieve and document the following:

- a) That all requirements have been satisfied and all the safety and reliability criteria have been met as specified in the relevant legislative regulations and in technical standards,
- b) That the requirements of nuclear safety and nuclear safety culture are being met by projects associated with nuclear safety as specified in the relevant legislative regulations and in technical standards,
- c) That the requirements specified by customer in the requested activities specification have been met,
- d) That the final solution is cost effective and optimal from the technical point of view.

The objective of the Rizzo Associates Czech, a.s. is:

- To minimize possible errors in the output documents and their fast and effective removal and their prevention,
- Transparency and sustainability of all activities related to the processing of output project documents in accordance with the legislative regulations requirements and technical standards,

- Providing for high culture of individual projects preparation, in particular nuclear safety culture,
- Continual improvement of the quality management system efficiency.

The management as well as all employees of RIZZO-CZ are in charge of accomplishing this Policy as specified in the quality documents. The Quality Policy is defined, adopted and declared by the company management. The Quality Policy has been communicated to all employees of the company.

Pilsen, date 12. 5. 2020

Ing. Marek Tengler
