

## THE RIZZO ASSOCIATES CZECH'S QUALITY POLICY

**Rizzo Associates Czech, a. s. has established a business in the following areas:**

- engineering services for the construction industry,
- graphic work and construction drawing services,
- engineering design in construction,
- research and development in technical sciences – power generation engineering,
- preparation and development of technical designs,
- provision of software and consultancy for hardware and software.

**The management of Rizzo Associates Czech, a. s. hereby declares the following Quality Policy:**

The Quality Management System is implemented and maintained to be functional and effective as well as to meet all requirements defined by the international standard (ČSN) EN ISO 9001:2015.

The output project documents (reports, calculations, drawings etc.) that are the outcome of the engineering and technical activities of Rizzo Associates Czech, a. s., i.e. result from individual projects, shall be processed in a way to always achieve and document the following:

- a) All requirements have been satisfied and all the safety and reliability criteria have been met as specified in the relevant legislative regulations and in technical standards.
- b) The requirements of nuclear safety and of nuclear safety culture have been met by projects associated with nuclear safety as specified in the relevant legislative regulations and in technical standards.
- c) The requirements specified by the customer in the specification of requested activities have been met.
- d) The final solution is cost effective and optimal from the technical point of view.

The objective of the Rizzo Associates Czech, a. s. is:

- To minimize possible errors in the output documents and their fast and effective removal and their prevention.
- The transparency and sustainability of all activities related to the processing of output project documents is in accordance with the requirements of related legislative regulations and technical standards.
- Providing for high culture of individual projects preparation, in particular nuclear safety culture.
- Continuous improvement of the Quality Management System efficiency.

The management as well as all employees of RIZZO-CZ are in charge of accomplishing this Policy as specified in the quality documents. The Quality Policy is defined, adopted and declared by the company management. The Quality Policy has been communicated to all employees of the company.

Pilsen, date 26. 4. 2021

Ing. Marek Tengler
